

2012

OSHA Compliance Crash Course

Wednesday, December 12
Country Club of Little Rock
8:00 AM - Noon

Printers continue to face pages of existing regulations, NEW regulations, contradictory guidance, increased inspections, and general difficulties understanding what is required as part of their **written safety plan** and ongoing **employee safety training**.

To assist you in satisfying your legal compliance requirements, confirming the accuracy of your safety program, and reduce the possibility of workplace injuries, the 2012 OSHA Compliance Crash Course was developed.

Written Safety Plan Checkup (Bring Your Plan)

- ▶ What MUST be in writing vs. what you cover informally in your training
- ▶ Critical items that often get overlooked in written safety plans
- ▶ Critical elements of your plan that OSHA will be looking for in an inspection
- ▶ Your plan does not need to be elaborate. Simple, concise, and to the point

Safety Training Processes & Compliance

- ▶ Learn what OSHA requires as part of your employee safety training meetings
- ▶ What areas of safety training require regular retraining and how often
- ▶ Who is qualified to provide safety training to your employees
- ▶ Requirements for proper documentation of your safety training
- ▶ New hire minimum safety training requirements

OSHA is Targeting Printers - Are You Prepared?

- ▶ What companies get targeted by OSHA and why
- ▶ Are you currently being targeted by OSHA?
- ▶ Typical patterns that emerge from an OSHA inspection
- ▶ Discussion on the top 20 OSHA violations found in our industry
- ▶ How does your company's preparedness measure up
- ▶ Proper way to manage your surprise OSHA inspection

Brian Rutherford

Brian has 25 years of safety experience in OSHA compliance and risk management for printing & publishing, manufacturing, and construction companies. He has worked exclusively in the printing industry for fifteen years as the association's Regulatory Manager for Missouri and Kansas where he functions as the safety director for over thirty printing companies. In this capacity, he also developed PrintGuard®, the first OSHA 10-Hour and 30-Hour Classes for General Industry that are specific to the graphic communications sector. He has personally developed and implemented employee safety and health programs, turned around failed programs, and participated in over 250 OSHA inspections at printing companies.

Former Corporate Safety Coordinator for Purolator Products Company based in Tulsa, Oklahoma. Brian worked extensively in the commercial insurance industry serving a wide variety of clients. He has a Bachelor's Degree in Safety Management from the University of Central Missouri.
